- Built with a Python library, Streamlit - We won "Best use of Streamlit" in RhythmHacks.

WeatherMap | 🔄

📅 January 2024

- Personal Project built using NodeJS and a variety of API's

ABOUT ME

As a driven High School student, I am dedicated to pursuing a career in the STEM field. My journey began in the summer leading up to eleventh grade when I discovered I have passion in CS. Since then, I have been continuing to work hard daily to expand my knowledge in the field. I believe action is the most efficient way of gaining valuable knowledge. I have already attended two hackathons, and I will continue to grasp such opportunities. The sky's the limit.

EXPERIENCE - VOLUNTEERING

Soccer Coaching | Waterloo Minor Soccer Club

📅 June 2022 - August 2022

📍 Waterloo, Canada

- I managed and coached children aged 6-10 soccer, taught basic soccer foundations and organized training and refereed small sided games.
- I ran a team with one partner, the biggest challenge was managing all the little kids. I strengthened my leadership and collaboration skills in the process.
- Payed homage to all of the volunteers and coaches who helped me when I was younger!

Tutoring | LAUNCH Waterloo / HomeworkHub Tutoring

📅 May 2022 - August 2022

📍 Kitchener Canada

- The LAUNCH camp is designed for passionate kids who have a starting interest in the Stem field. The program features weekly meetings and occasional events where participants collaborate to create projects as a team.
- I acted as a specialist in LAUNCH events, where I used my knowledge to answer questions and guided project creating activities.
- Homework Hub runs as a free tutoring system for struggling students from grades 1-8. There are weekly one on one meetings between tutors and students discussing their subject of choice. I tutored English.

Art and Culture/Food Bank Helper | Region of Waterloo Services

📅 July 2022-Present

📍 Waterloo, Canada

- For the Art and Culture sector of the Region of Waterloo, I assist in setting up major community events in the city.
- For the Canada day event on July 1st, I set up tents, activities, and more before families arrived to celebrate the special occasion.
- For the Waterloo Regional Food Bank, I helped sort and organize the food the region receives from donors.
- Helped sort food that totaled to around 9,000lbs, equivalent to over 3,000 meals. A great achievement for me and the team!
